Henry Casale

HORTY  SPRINGER

Jointly sponsored by the University of Pittsburgh School of Medicine Center
for Continuing Education in the Health Sciences and HortySpringer Seminars.

The University of Pittsburgh is an affirmative action, equal opportunity institution.

TOPICS

Just like everything else, contracting with physicians isn't getting any easier. With significant reimbursement changes, increased government fraud enforcement, and new types of competition, hospitals and health systems have their work cut out for them. Join faculty Dan Mulholland and Henry Casale to learn about these and other challenges that will affect your physician contracting strategy and compliance efforts in today's Brave New World.

Topics that will be covered include:

- What fresh hells affecting physician contracts are lurking in the Big Beautiful Budget Bill and proposed physician fee schedule and hospital reimbursement rules?
- DOJ and the OIG are ramping up fraud enforcement – how to stay out of their crosshairs.
- Physician shortages in specialties like anesthesia are pushing up compensation demands. How do you reconcile this with fair market value rules and still attract and retain needed professionals?
- Private equity firms continue to buy more physician groups. You may be contracting with some. Learn what you need to look out for when dealing with them.
- 75% of all physicians are now employed. What does this mean for the future of the medical staff?
- APPs are a bigger part of the care team, but not all APPs are the same. What are the rules for paying the different types of APPs and for the physicians who supervise or collaborate with them?
- The DOJ and Qui Tam relators continue to pursue hospitals due to their billing practices and physician contracts – see what you can learn from the misfortune of others.
- How deferred compensation arrangements can help you with demands for ER call pay and retention of physicians.
- With all these challenges, it is also important to remember the basic rules governing physician contracting, compensation and compliance.
